1 Work Experience

Web Developer Intern   2023

- Developed a static Amazon website clone using HTML and CSS, enhancing skills in front-end design and user interface. - Collaborated on a C++ scientific calculator project, implementing 15+ complex mathematical functions. - Contributed to a transport-sharing app concept for Smart India Hackathon, focusing on real-time problem-solving. - Participated in a college hackathon, working closely with senior developers, gaining valuable mentorship and experience. - Gained hands-on experience in teamwork, adaptability, and effective communication in a fast-paced development environment.

2 Projects

Projects	click here
Amazon Clone:	Created a static website clone of Amazon using HTML and CSS, focusing on layout design and user experience. The project features 50+ product listings, enhancing my front-end development skills and improving user interaction. click here
Scientific Calculator:	Developed a C++ scientific calculator as part of a team project, implementing 15+ mathematical functions including addition, subtraction, and logarithms. Enhanced coding skills through collaboration with 3 team members, gaining hands-on experience with object-oriented programming concepts.
Notes App:	Designed a notes application using HTML, CSS, and JavaScript for creating and managing notes. The app supports 100+ notes with local storage for persistent access, enhancing my JavaScript and web development skills. Users can easily create, edit, and delete notes for better organization and productivity. click here

3 Education

2023-27 - (present)	B.Tech in Computer Science	
	Sushila Devi Bansal College of Technology, Indore	(CGPA: 7.45)
